

**TEGO® Dispers 757 W**  
**The new benchmark for high performance colorants in durable waterborne coatings**

TEGO® Dispers 757 W is designed for premium pigment concentrates used in all waterborne industrial coatings but particularly where durability and corrosion protection is paramount. Additionally, TEGO® Dispers 757 W can be utilized in wood and architectural coatings where there is an emphasis on outstanding humidity, moisture, and weathering resistance. Even at low additive levels, dispersion properties such as stability and color strength are significantly enhanced, which leads to cost savings and less influence on coatings properties. Furthermore, TEGO® Dispers 757 W enables the production of highly pigmented mill bases which can result in significant cost savings.

**Company information**

Evonik, the creative industrial group from Germany, is one of the world leaders in specialty chemicals. Its activities focus on the key megatrends health, nutrition, resource efficiency and globalization. Profitable growth and a sustained increase in the value of the company form the heart of Evonik's corporate strategy. Evonik benefits specifically from its innovative prowess and integrated technology platforms.

Evonik is active in over 100 countries around the world. In fiscal 2011 more than 33,000 employees generated sales of around €14.5 billion and an operating profit (adjusted EBITDA) of about €2.8 billion.
