

The Little TEGO – now available as an App!

August 22, 2012

Just over a year ago, Evonik successfully launched its handy reference guide, “The Little TEGO”, at the European Coatings Show. This useful vade mecum is now available free of charge as an App in the iTunes Store and the Android Market.

christiane.hoeg@evonik.com

The mobile version contains an integrated collection of formulas which enable almost instantaneous calculation of important parameters and data such as pigment volume concentration, rotational speed conversion, amount of curing agent required and much more. Diagrams and tables on viscosity behavior and flow characteristics provide an insight into rheology. Detailed photos show common defects during the manufacture and application of coatings, while health and safety instructions round off the information.

The App is the ideal additional resource for all those training, studying and working in the field of coatings and printing inks.

Company information

Evonik, the creative industrial group from Germany, is one of the world leaders in specialty chemicals. Its activities focus on the key megatrends health, nutrition, resource efficiency and globalization. Profitable growth and a sustained increase in the value of the company form the heart of Evonik’s corporate strategy. Evonik benefits specifically from its innovative prowess and integrated technology platforms.

Evonik is active in over 100 countries around the world. In fiscal 2011 more than 33,000 employees generated sales of around €14.5 billion and an operating profit (adjusted EBITDA) of about €2.8 billion.
