Processing, and thus productivity, can be improved during manufacturing and continuous application of the coating due to the excellent rheological profile.

Low thixotropy, low viscosity and good yield points can be seen even with the highest concentrations of matting agents when using TEGO® Dispers 688.

Constant matte and gloss levels after storage of the coatings, even at high usage of matting agents, help to manufacture premium matte surfaces.

Company information

Evonik, the creative industrial group from Germany, is one of the world leaders in specialty chemicals. Its activities focus on the key megatrends health, nutrition, resource efficiency and globalization. In 2010 about 80 percent of the Group's chemicals sales came from activities where it ranks among the market leaders. Evonik benefits specifically from its innovative prowess and integrated technology platforms.

Evonik is active in over 100 countries around the world. In fiscal 2010 more than 34,000 employees generated sales of around €13.3 billion and an operating profit (EBITDA) of about €2.4 billion.
