TEGO® Foamex 823 is a defoamer emulsion for waterborne coatings, paints and printing inks. Due to its outstanding balance between defoaming power and compatibility, it is widely suitable in a variety of systems and applications.

Complexity in the lab and production can be reduced with TEGO® Foamex 823 because of the ability to use one defoamer instead of using a large number of specialty defoamers.

Company information

Evonik, the creative industrial group from Germany, is one of the world leaders in specialty chemicals. Its activities focus on the key megatrends health, nutrition, resource efficiency and globalization. In 2010 about 80 percent of the Group's chemicals sales came from activities where it ranks among the market leaders. Evonik benefits specifically from its innovative prowess and integrated technology platforms.

Evonik is active in over 100 countries around the world. In fiscal 2010 more than 34,000 employees generated sales of around €13.3 billion and an operating profit (EBITDA) of about €2.4 billion.
